

## Foil balloon

1. Inflate foil balloons, feed tail of balloon through large opening at the top of the cone and out the smaller opening at bottom as indicated.

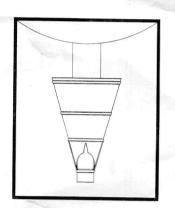

2. Once through the bottom opening, pull balloon tail taut and up into the groove. Remove release liner from tape tab and firmly press tail against adhesive.

## Latex balloon

1. Inflate the latex balloon and tie it.

2. Use the handle to fix the balloon in the groove.
